Youth Services Division

Parenting Class Registration Form

The Parent Project was created specifically for parents with difficult or out-of-control adolescents. Parents learn and practice specific prevention and intervention strategies for destructive behaviors-truancy, drug use, gangs criminal behavior, running away and violence.

Loving Solutions is a guide for parents of pre-teen strong will children. It provides guidelines for parents to determine when they need a "rule," what issues are negotiable, when parents can negotiate with children, how to use time-outs properly to gain substantial behavior change, how to get children to cooperate with household chores, to get along better with siblings, and improve school success.
